

# X-75S

## X-75 Radial Lift Skid Steer

The X-75S delivers powerful performance with radial lift geometry built for demanding jobs across agriculture, construction, and material handling.

### Key Specifications

#### Power & Performance

Engine	74 HP Cummins diesel engine
Load Capacity	2,200 lb
Operating Weight	8,377 lb
Travel Speed	7.5 mph
Bucket Capacity	0.55 yd <sup>3</sup>
Drive System	Rexroth/Bosch hydrostatic
Aux Pump Configuration	PWG for enhanced hydraulic performance
Ground Clearance	7.8 in

#### Operator Controls & Safety

Joystick	Pilot-operated ISO controls for precise, responsive operation
Parking Brake	Electric parking brake
Safety Arm	Fold-down arm for operator comfort and safety
Float Mode	Float mode for improved material handling efficiency

## Key Specifications (cont.)

### Cab Features

Climate Control	Heat and A/C for year-round comfort
Camera	Integrated camera system for enhanced visibility
Throttle Control	Independent throttle control with added foot throttle
Door	Swing door for easy operator access
Ergonomics	Comfortable, operator-focused cabin design

### Hydraulics & Attachments

Quick Attach	Hydraulic quick attach system for fast attachment changes
Hydraulic Flow	High flow 31.7 GPM with momentary boost for demanding attachments
Hydraulic Remote	Continuous flow with case drain
Lighting	LED work lights for all-condition operation

## Measurements

<b>Length (with bucket)</b>	138 in (11.5 ft)
<b>Width</b>	70 in (5.83 ft)
<b>Height</b>	85 in (7.08 ft)
<b>Height to Bucket Hinge</b>	114 in (9.5 ft)
<b>Ground Clearance</b>	7.8 in
